

14th Annual End of Summer Celebration **Movie in the Park 2023**

TUESDAY, AUGUST 22nd, 2023, is booked for this year's event!

The Parents for Fun in Flagstaff Society is gearing up to host our 14th year - the community event of the summer!

This event is our main fundraiser in support of the Family Resource Centre - which is always busy these days.

We're now on a search for this year's fabulous location. Please let us know if your community would like to partner with us and have us bring our family fun event to your town or village this summer.

What's in it for you?

1. Networking and exposure! Get to know your neighbors! Show our guests what your community has to offer! We'd be happy to partner our event with any other programs/facilities you would like to highlight. What's great about your town or village? Bring us your ideas - we'd love to hear them!
2. Boost your local economy! Wherever possible, Parents for Fun in Flagstaff will "shop locally" in your community for our food and supplies. And more people in your village or town means more people frequenting your stores and gas stations.
3. Community spirit! Pulling off a successful, fun-filled family event can be a great bonding experience for your community, and those feelings of pride and accomplishment can last a long time.

How can you get involved?

The Parents for Fun in Flagstaff Society does require a fair amount of support from our host town/village. A basic list of requirements to be met is listed below.

1. Provide us with a suitable location that will have enough space for all activities.
2. The municipality and or group must take on the responsibility of having the grass mowed and spraying for mosquitoes. This is done with a non-toxic, all natural garlic spray with a cost of around \$100.00.
3. The town or village is required to mark all underground lines prior to the event and manage lighting requirements.
4. Commitment of volunteers to assist us on movie night.
5. Provide 20 picnic tables and 6 of each garbage and recycling cans for the BBQ.
6. Provide us with a community liaison to facilitate communication between PFFF and the host town/village.
7. Assist in canvassing local businesses in support of the event.
8. Public Works available to assist us with set up on the day of the event.

We have a dedicated group of volunteers committed to making this event a continued success. We are willing to work WITH YOU on all these areas and are open to any new ideas or suggestions, to make this event a success in your town or village.

If you are interested in partnering with us to host this incredible family event in your town or village, please send your proposal to:

Parents for Fun in Flagstaff
Box 72
